

Preliminary Approval Announcement

Line Extension Advancement and Development Program

March 22, 2022

The West Virginia Department of Economic Development has preliminarily selected Hardy Telecommunications to receive an award pursuant to a request for grant funding under the Line Extension Advancement and Development Program. The project's Proposed Project Funded Service Area is located in Grant County, more specifically identified by addresses passed listed in the attachment to this Announcement. Internet Service Providers (ISPs), other than Hardy Telecommunications, may submit data demonstrating that the ISP currently offers broadband service at 25/3 Mbps or greater to addresses within the Proposed Project Funded Service Area. Data submitted must meet all the requirements described in the Process for Soliciting Information Regarding Unserved Areas, which the Department published on July 12, 2021. Notwithstanding the response deadline stated in the Process for Soliciting Information Regarding Unserved Areas, ISPs providing data must submit to the Department data related to projects receiving Preliminary Approval Announcement not later than April 6, 2022, at 5PM EST. Based on submitted data, the Department may request that a preliminary awardee submit a revised project removing parts that solely benefit some or all addresses identified as served, the Department may withdraw the preliminary approval, or the Department may allow the preliminary award to proceed without changes. In making its determination, the Department will also consider other data and factors more fully described in the Line Extension Advancement and Development Program Procedures, in the section, "Post-Award Notification Process."

Preliminary Approval Announcement

Line Extension Advancement and Development Program

March 22, 2022

The West Virginia Department of Economic Development has preliminarily selected Shenandoah Cable Television LLC to receive an award pursuant to a request for grant funding under the Line Extension Advancement and Development Program. The project's Proposed Project Funded Service Area is located in Grant County, more specifically identified by addresses passed listed in the attachment to this Announcement.

Internet Service Providers (ISPs), other than Shenandoah Cable Television LLC, may submit data demonstrating that the ISP currently offers broadband service at 25 /3 Mbps or greater to addresses within the Proposed Project Funded Service Area. Data submitted must meet all the requirements described in the Process for Soliciting Information Regarding Unserved Areas, which the Department published on July 12, 2021. Notwithstanding the response deadline stated in the Process for Soliciting Information Regarding Unserved Areas, ISPs providing data must submit to the Department data related to projects receiving Preliminary Approval Announcement not later than April 6, 2022, at 5PM EST. Based on submitted data, the Department may request that a preliminary awardee submit a revised project removing parts that solely benefit some or all addresses identified as served, the Department may withdraw the preliminary approval, or the Department may allow the preliminary award to proceed without changes. In making its determination, the Department will also consider other data and factors more fully described in the Line Extension Advancement and Development Program Procedures, in the section, "Post-Award Notification Process."

Preliminary Approval Announcement

Line Extension Advancement and Development Program

March 22, 2022

The West Virginia Department of Economic Development has preliminarily selected Lingo Networks, LLC to receive an award pursuant to a request for grant funding under the Line Extension Advancement and Development Program. The project's Proposed Project Funded Service Area is located in Pendleton, more specifically identified by addresses passed listed in the attachment to this Announcement.

Internet Service Providers (ISPs), other than Lingo Networks, LLC, may submit data demonstrating that the ISP currently offers broadband service at 25/3 Mbps or greater to addresses within the Proposed Project Funded Service Area. Data submitted must meet all the requirements described in the Process for Soliciting Information Regarding Unserved Areas, which the Department published on July 12, 2021. Notwithstanding the response deadline stated in the Process for Soliciting Information Regarding Unserved Areas, ISPs providing data must submit to the Department data related to projects receiving Preliminary Approval Announcement not later than April 6, 2022, at 5PM EST. Based on submitted data, the Department may request that a preliminary awardee submit a revised project removing parts that solely benefit some or all addresses identified as served, the Department may withdraw the preliminary approval, or the Department may allow the preliminary award to proceed without changes. In making its determination, the Department will also consider other data and factors more fully described in the Line Extension Advancement and Development Program Procedures, in the section, "Post-Award Notification Process."

Preliminary Approval Announcement

Line Extension Advancement and Development Program

March 22, 2022

The West Virginia Department of Economic Development has preliminarily selected Citynet to receive an award pursuant to a request for grant funding under the Line Extension Advancement and Development Program. The project's Proposed Project Funded Service Area is located in Taylor and Randolph counties, more specifically identified by addresses passed listed in the attachment to this Announcement. Internet Service Providers (ISPs) other than Citynet may submit data demonstrating that the ISP currently offers broadband service at 25/3 Mbps or greater to addresses within the Proposed Project Funded Service Area. Data submitted must meet all the requirements described in the Process for Soliciting Information Regarding Unserved Areas, which the Department published on July 12, 2021. Notwithstanding the response deadline stated in the Process for Soliciting Information Regarding Unserved Areas, ISPs providing data must submit to the Department data related to projects receiving Preliminary Approval Announcement not later than April, 6, 2022, at 5PM EST. Based on submitted data, the Department may request that a preliminary awardee submit a revised project removing parts that solely benefit some or all addresses identified as served, the Department may withdraw the preliminary approval, or the Department may allow the preliminary award to proceed without changes. In making its determination, the Department will also consider other data and factors more fully described in the Line Extension Advancement and Development Program Procedures, in the section, "Post-Award Notification Process."
