West Virginia's Broadband Investment Plan

**Major Broadband Project Strategies Program (MBPS) – Round 2 Funding
Program Overview**

March 8, 2023

This Webinar Will Be Recorded

DISCLAIMERS

- The MBPS Program will use funding allocated to the State of West Virginia under the American Rescue Plan Act (ARPA) Capital Projects Fund (CPF), and the State and Local Fiscal Recovery Fund (SLFRF) programs, administered by the U.S. Dept. of the Treasury. Program parameters are subject to ARPA, U.S. Treasury Rules, and other federal and state requirements.
- Visit broadband.wv.gov and the U.S. [Treasury's website](https://www.treasury.gov) for additional information.

KEY DOCUMENTS TO REVIEW AND UNDERSTAND

DOCUMENTS HAVE BEEN PUBLISHED OR WILL BE SHORTLY

1. Program Procedures
2. Guide to Reporting and Compliance Obligations for West Virginia ARPA Broadband Investment Plan Subrecipients
3. Target Address Maps
4. Application questions and required documents template in ZoomGrants Online Application

Applicants should also read and understand U.S. Treasury Rules and Guides for ARPA Funding.

Notice of Request for Data Related to the BEAD Program

February 3, 2023

The West Virginia Department of Economic Development has issued a voluntary data request in parallel to the Federal communication Commission's (FCC) Digital Opportunity Data Collection (DODC) process. The intention of this data request is to receive the information when it is submitted to the FCC to mitigate any delays between broadband program rounds that require the latest filings...

MBPS PROGRAM ROUND 2

PROGRAM PURPOSE

- A state grant program for projects that have received technical assistance through the GigReady program, first announced by the Department in 2021
- \$30M is targeted for this funding opportunity
- MBPS Eligible Applicants must be an ISP partnering with a community that applied to the GigReady program
- A key element of the GigReady program is to help match potential projects to other state and federal funding sources
 - Examples of other potential funding sources include ARPA, ARC, IIJA, USDA, or US EDA

Units of local government should not be the applicant for MBPS projects.

There will be a separate new round of the GigReady program for communities that wish to be the lead applicant.

From the GigReady Program Procedures

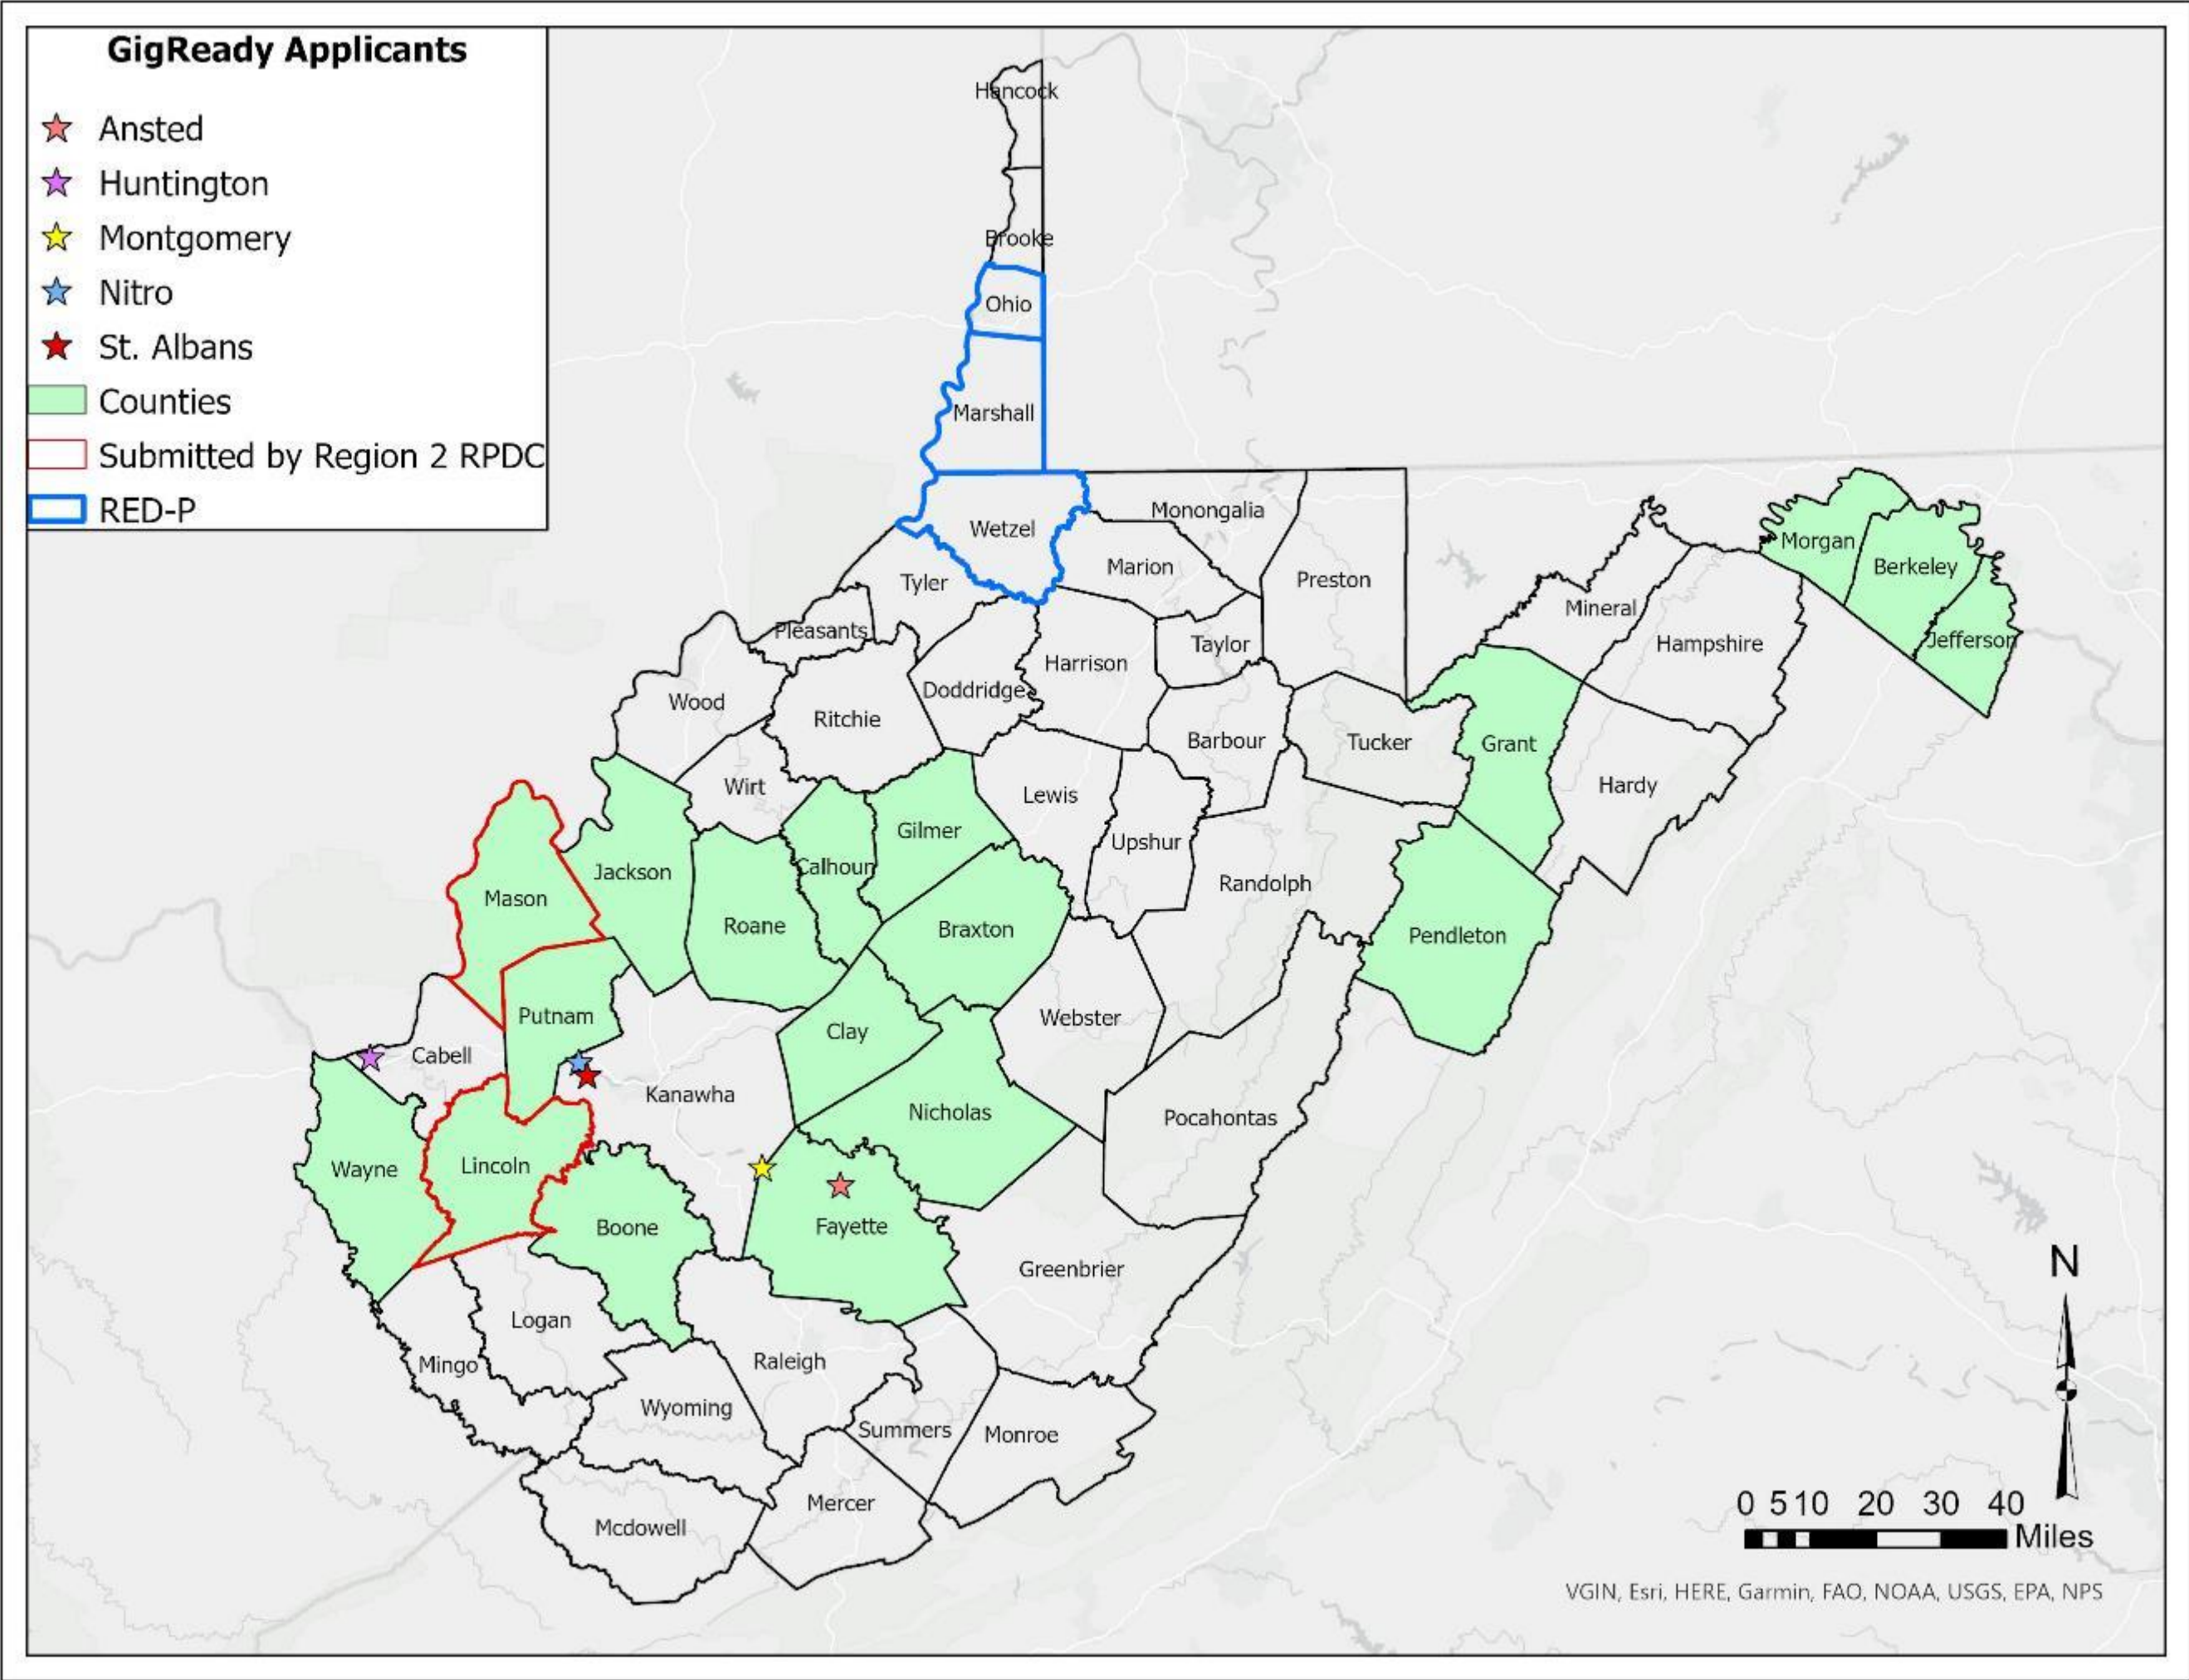

The GigReady program will assist participants in two distinct phases.

In phase one, the program will provide technical assistance to help communities scope projects, select private partners and vendors, and complete other necessary steps in the broadband development process.

In phase two, upon completion of the technical assistance phase, participants may then be eligible for implementation funding through the GigReady program or other funding sources.

Participants who have qualifying, shovel ready projects that do not need technical assistance can apply to proceed directly to phase two by submitting a complete application, including all information listed as “optional” in the application.

GIGREADY ROUND 1 APPLICANTS

PROJECT SIZE

MAXIMUM SIZE IN A SINGLE PROPOSAL

- Project may not request more than \$20M.
- Proposed projects may not have more than 5,000 Targeted addresses.
- An applicant may submit multiple applications.

PROGRAM TIMELINE

March 3, 2023

- Program Announcement

Apr. 20, 2023

- Application Deadline

March 9, 2023

- Online Application Opens

ELIGIBILITY CRITERIA

KEY REQUIREMENTS

Last-Mile, Unserved Project Focus

- Projects must extend last-mile service to Targeted addresses.
- Targeted addresses are estimated to have no access to internet service with speeds of at least 25/3 Mbps and are not in an area with an existing state, federal, or locally funded project to deliver broadband service of at least 25/3 Mbps speed.
- Service by satellite providers or mobile wireless networks does not count.

Speeds

- Projects with speeds of at least 1000/500 Mbps are encouraged.
- Project must have speeds of at least 100/20 Mbps, scalable to 100/100 Mbps.

Timeline

- Project must be completed within 24 months of award.
- 6-month extensions permitted for delays not caused by the applicant.

Cost

- Proposed project costs must be reasonable and proportional to the difficulty of the project.

Affordability

- Applicants will be required to participate in the FCC's Affordable Connectivity Program (ACP) program.

Community Partnership

- Must demonstrate community support.
- Minimum formal expression of support from leaders of proposed communities.
- Active partnerships, planning, financial support encouraged.

GRANT-ELIGIBLE EXPENDITURES

ELIGIBLE PROJECT ACTIVITIES AND COSTS INCLUDE:

- One-time capital expenditures made *after* the date of the grant agreement execution and WVDED authorization
- Facilities necessary to deliver last-mile broadband service to unserved addresses
- Grant funds provided on a reimbursement basis

Carefully review the Program Procedures and Guide for additional important details!

CALCULATING MATCH

MINIMUMS FOR MBPS PROGRAM

- Applicants must provide match equal to 25% of eligible project costs
- Match may be provided by Applicant or committed by a community partner
- Applicants must demonstrate community support of investment to pledge funds
- Matching funds must be spent by the awardee prior to reimbursement
- Match must be spent on allowed expenditures
- Applicants must commit to matching funds at the time of application

MBPS PROJECT MATCH

MINIMUM MATCH AND ADDITIONAL MATCH

- Applications *must* provide the minimum match.
- Applicants are *encouraged* to provide additional match. Additional match above the minimum provides points during project scoring.
- No contingent sources or in-kind contributions are allowed as match.

WAIVERS

APPLICANTS MAY SEEK WAIVERS IN TWO AREAS

Construction Timeline

- Must identify alternative timeline ending ASAP and not later than 12/31/2026
- Must explain circumstances not under applicant control that make 24-month timeline infeasible

Matching Funds

- May ask to provide less than the required minimum
- Must explain why it is infeasible for applicant to provide minimum match
- Must document efforts to obtain matching funds

WAIVERS

WAIVERS MUST HAVE GOOD CAUSE

Waivers may be granted upon a determination that:

- It is in the best interest of the state,
- It furthers goal of expanding broadband service in West Virginia, and
- The proposed project would not be feasible or advisable without the requested waiver.

Applications seeking and not receiving a waiver may become ineligible.

The Department may prioritize funding applications not requesting a waiver over those that do.

PROJECT PRIORITIZATION

SCORING CRITERIA FOR IMPLEMENTATION FUNDING OF ELIGIBLE PROJECTS

Technical **(up to 100 points total)**

Project Readiness (up to 30 points)
Operational Readiness (up to 30 points)
Speed of Proposed Services (up to 40 points)

Financial **(up to 100 points total)**

Cost-Efficiency (up to 40 points)
Financial Resiliency (up to 30 points)
Commitment of Proposed Match Sources (up to 10 points)
The Amount of Matching Funds Proposed (up to 20 points)

Broadband Development Impact **(up to 100 points total)**

Affordability (up to 20 points)
Level of Demonstrated Community Support (up to 30 points)
Community Impact (up to 50 points)

Priority will go to those projects that score well in all three categories.

PROJECT PRIORITIZATION

TECHNICAL

Project Readiness

Completion of preliminary engineering

Attainment of necessary permits, right-of-way access, and easements

Completion of necessary pole and conduit licenses

Operational Readiness

Experience of leadership team

Strength of support from key vendors, contractors, and partners

Maturity of the Operating systems that will support the project

Gig Speed

The ability of the proposed project to serve customers at a gigabit speed

PROJECT PRIORITIZATION

FINANCIAL

Cost Efficiency

Cost relative to the difficulty of the project

Metrics like cost per mile or cost per premise passed

Factors like low density, extensive make-ready, unavoidable underground construction

Financial Resiliency

Sustainability of the project under adverse assumptions

Matching Funds

The commitment of proposed match sources

The amount of matching funds provided, over and above 25% of eligible project costs

PROJECT PRIORITIZATION

BROADBAND DEVELOPMENT IMPACT

Affordability	How low are residential prices?
	Is there a discounted service for low-income consumers that is fully covered by the ACP subsidy?
Demonstrated Community Support	Public-Private Partnerships
	Provision of local government land, facilities, or matching funds provided
	Local agreements to take service
	Response to presubscription campaigns
Community Impact Factors	The project is in an area of low or moderate income, high poverty, high unemployment or economic distress
	The project supports a credible plan to increase broadband adoption and improve digital literacy in the affected communities
	The project supports a major economic development initiative identified by a regional planning or development council or economic development authority
	The project supports or implements a recent broadband planning initiative in a county or region
	The project is coordinated with or builds upon other nearby projects that will provide greater regional benefit
	The project has strategic partnerships involved in the proposed project, for example, electric utilities, universities, and federal, state, or local agencies
	The project addresses Targeted premises in a region of the state with high need but relatively few funded projects
	The project supports adopted state plans or priorities not otherwise addressed by other prioritization factors

An aerial photograph of the Indiana State Capitol building, featuring its prominent blue and gold dome. The building is situated on a hill, with a river and surrounding residential areas visible in the background. The entire image is overlaid with a semi-transparent orange filter.

Using the Target Address Map Data

TARGET AREA ADDRESSES

CLASSIFICATIONS

The Program defines projects and eligibility for funding at the address level.

- Based on statewide address data developed by the West Virginia Statewide Addressing and Mapping System

Two classes for grant applicants:

- **Targeted** – Addresses estimated not to have current access to terrestrial internet service of 25/3 Mbps and not in an area with existing state, federal, locally funding.
- **Other Addresses**

MAP RESOURCES FOR GRANT APPLICATIONS

The Target Area address set can be found in ZoomGrants under “Proposed funded service area maps” in the “Document” tab.

Target Address Map

Downloadable data – Target Addresses

- Shapefile
- Feature Geodatabase
- CSV

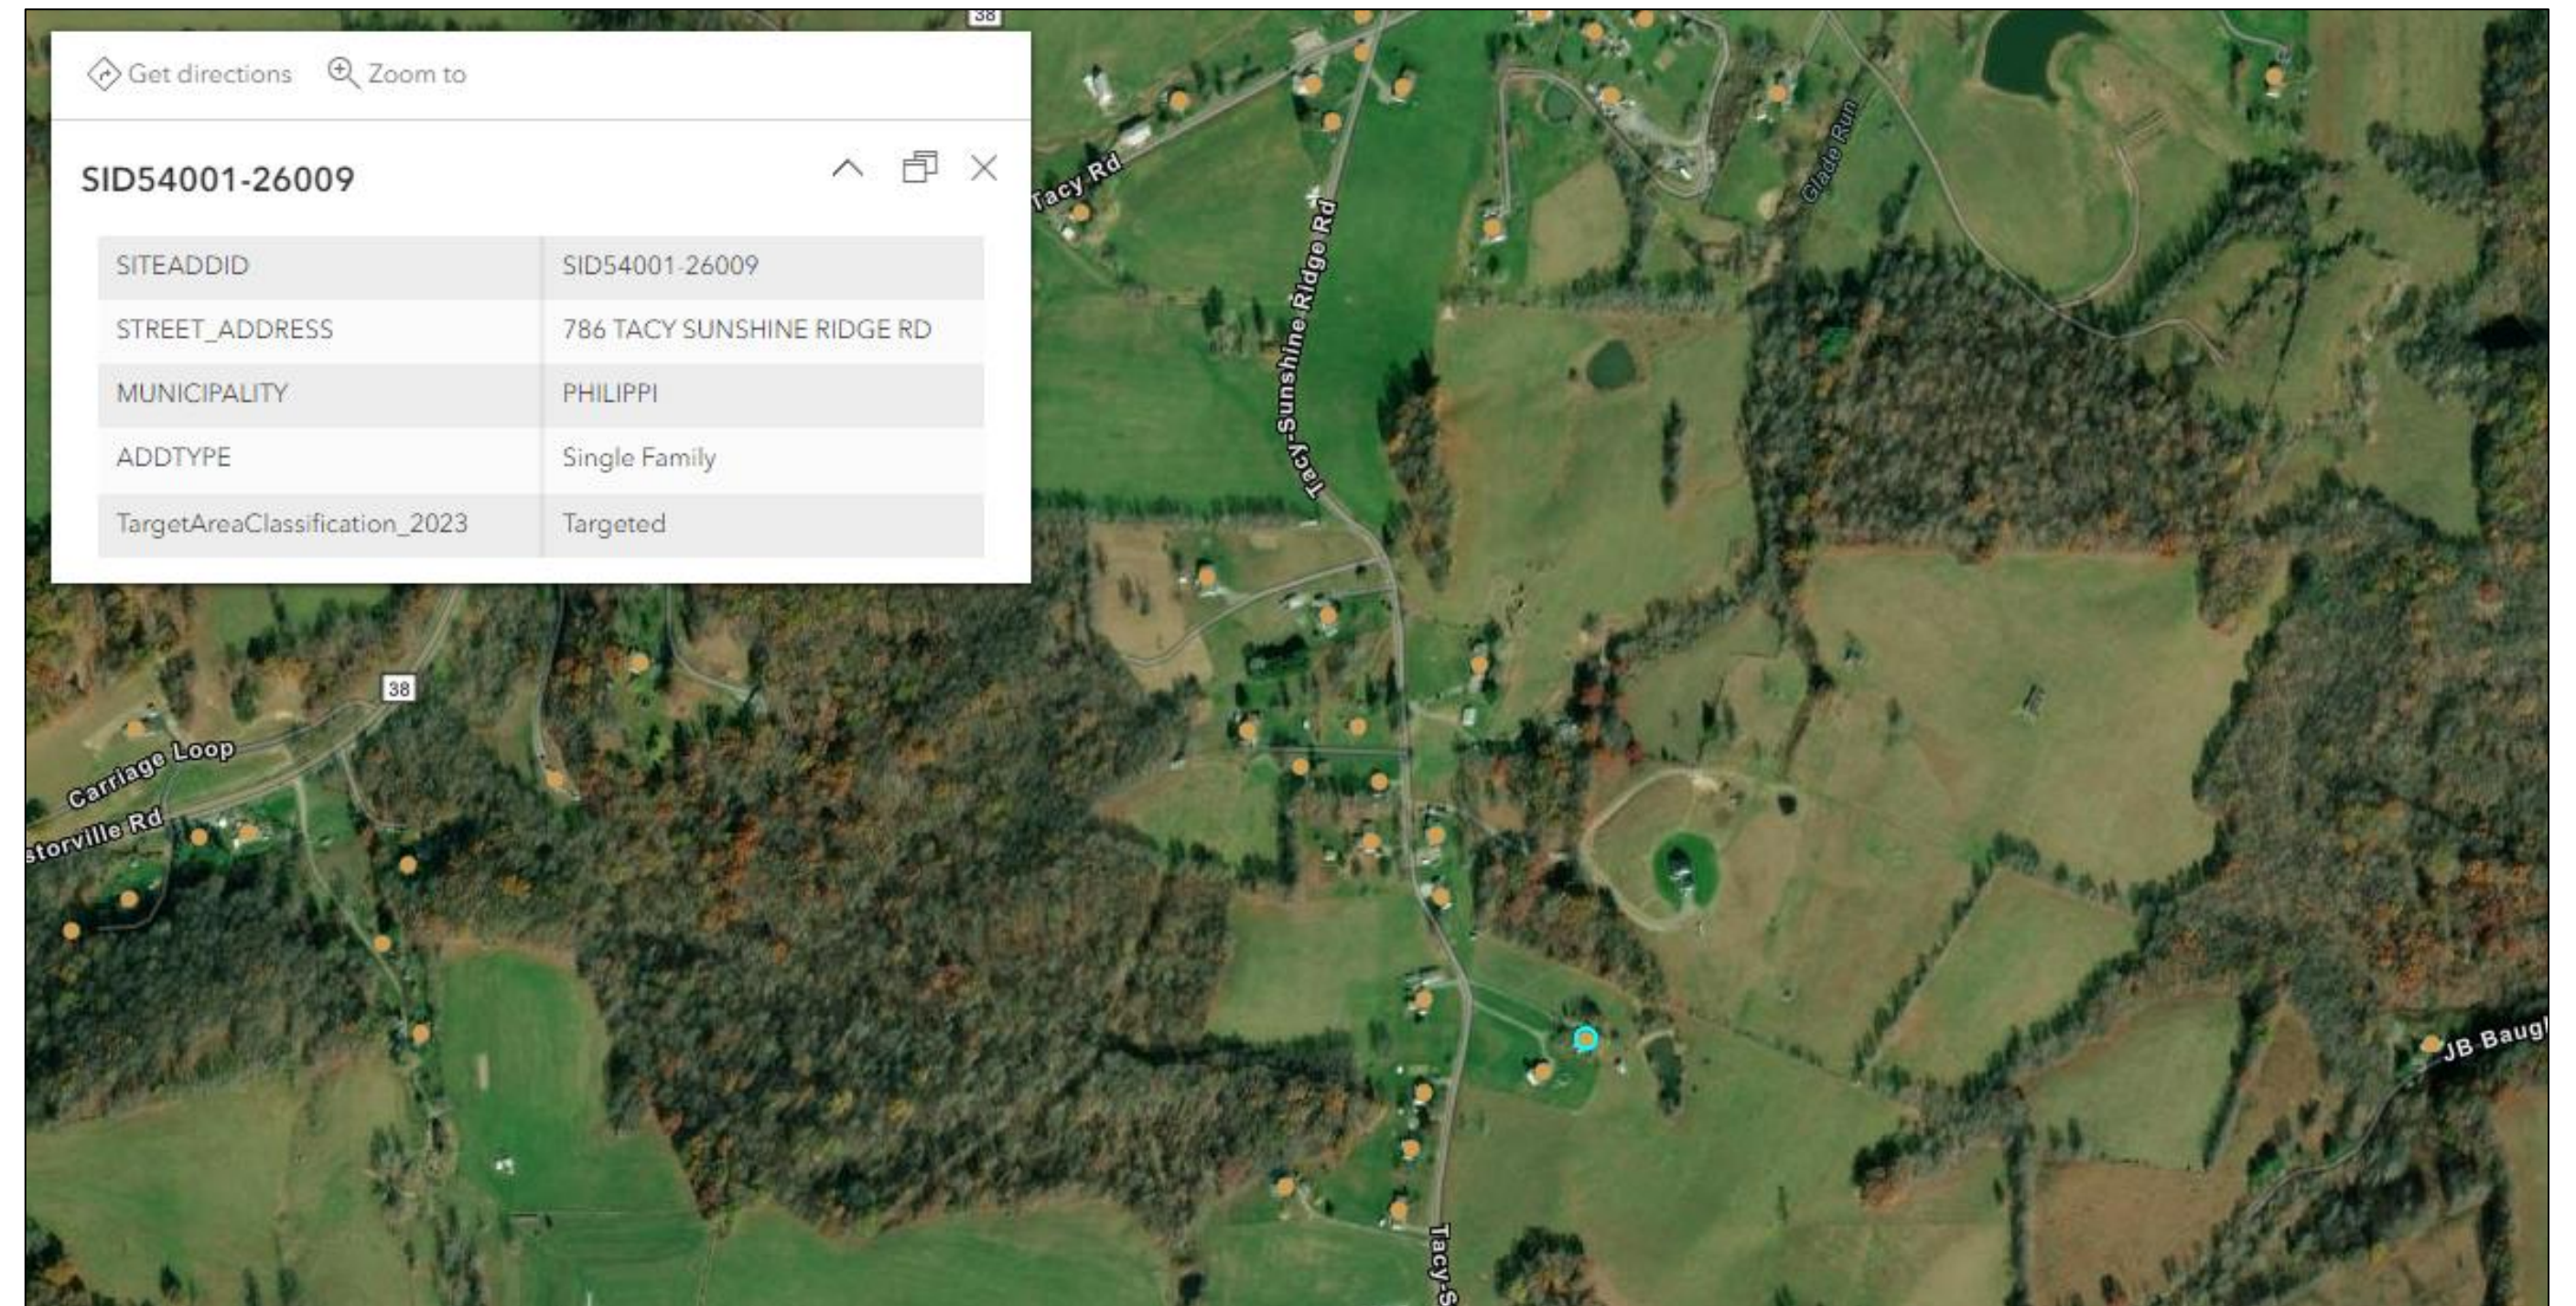

Documents Requested *
Proposed funded service area maps. Files submitted as shapefiles or a KMZ/KML file are preferred. Use the following link to download the Target Area address data. Download template: Download TargetAreaAddress Datasets
MBPS Program Workbook with tabs for Budget Detail, Budget Summary, Funding Sources and Match, Budget Breakdown, Key Project Data and Addresses Passed. Use provided template and address data from https://broadband.wv.gov/ ***REQUIRED Download template: MBPS Round 2 Program Workbook
Existing network: If interconnected with an existing network, show the applicant's existing fiber or cable network routes within the municipalities, and site & coverage info of adjacent existing wireless sites. ***REQUIRED Download template: Existing Network
Project Plan and timeline with major milestones showing that the proposed project can be completed within 24 months of award. The plan should include any major contingencies in the plan. ***REQUIRED
High-level network design. Designs submitted must include all new routes needed to connect to the applicant's existing network. If network includes wireless, also upload required files. Files must be submitted as shapefiles or a KMZ/KML. ***REQUIRED Download template: High-level Network Design

Applicants should use the Target Area address set to generate sets of addresses passed or covered by proposed projects.

MAP RESOURCES FOR GRANT APPLICATIONS

ADDRESS TYPES

- Several classifications have been removed to filter only broadband serviceable structures.
- Some locations may not be broadband serviceable due to inaccurate classifications.

Not all address types are classified appropriately e.g., single family home classified as an “accessory building.” No personal information is associated with these locations.

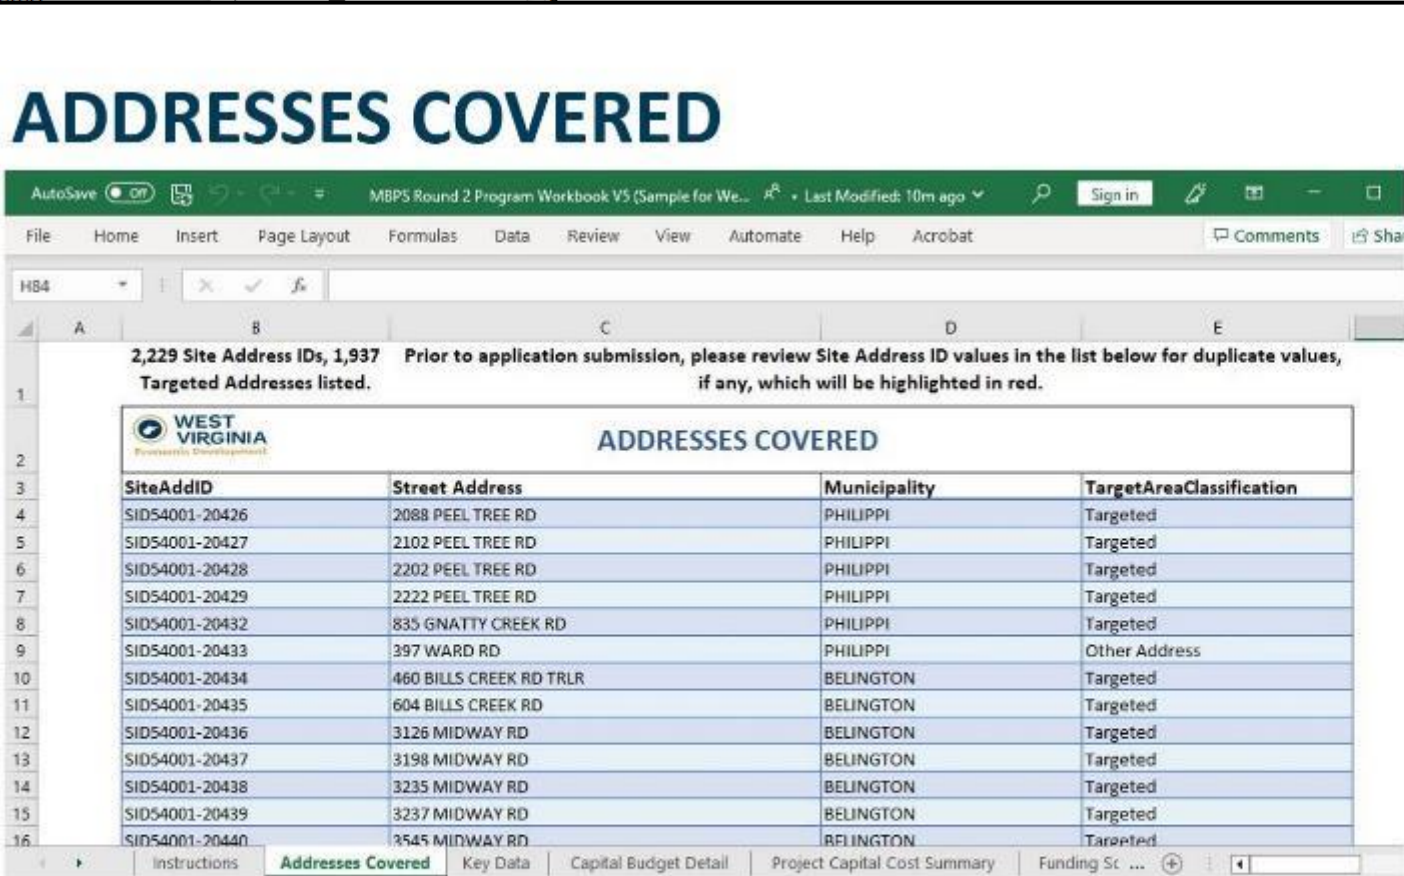

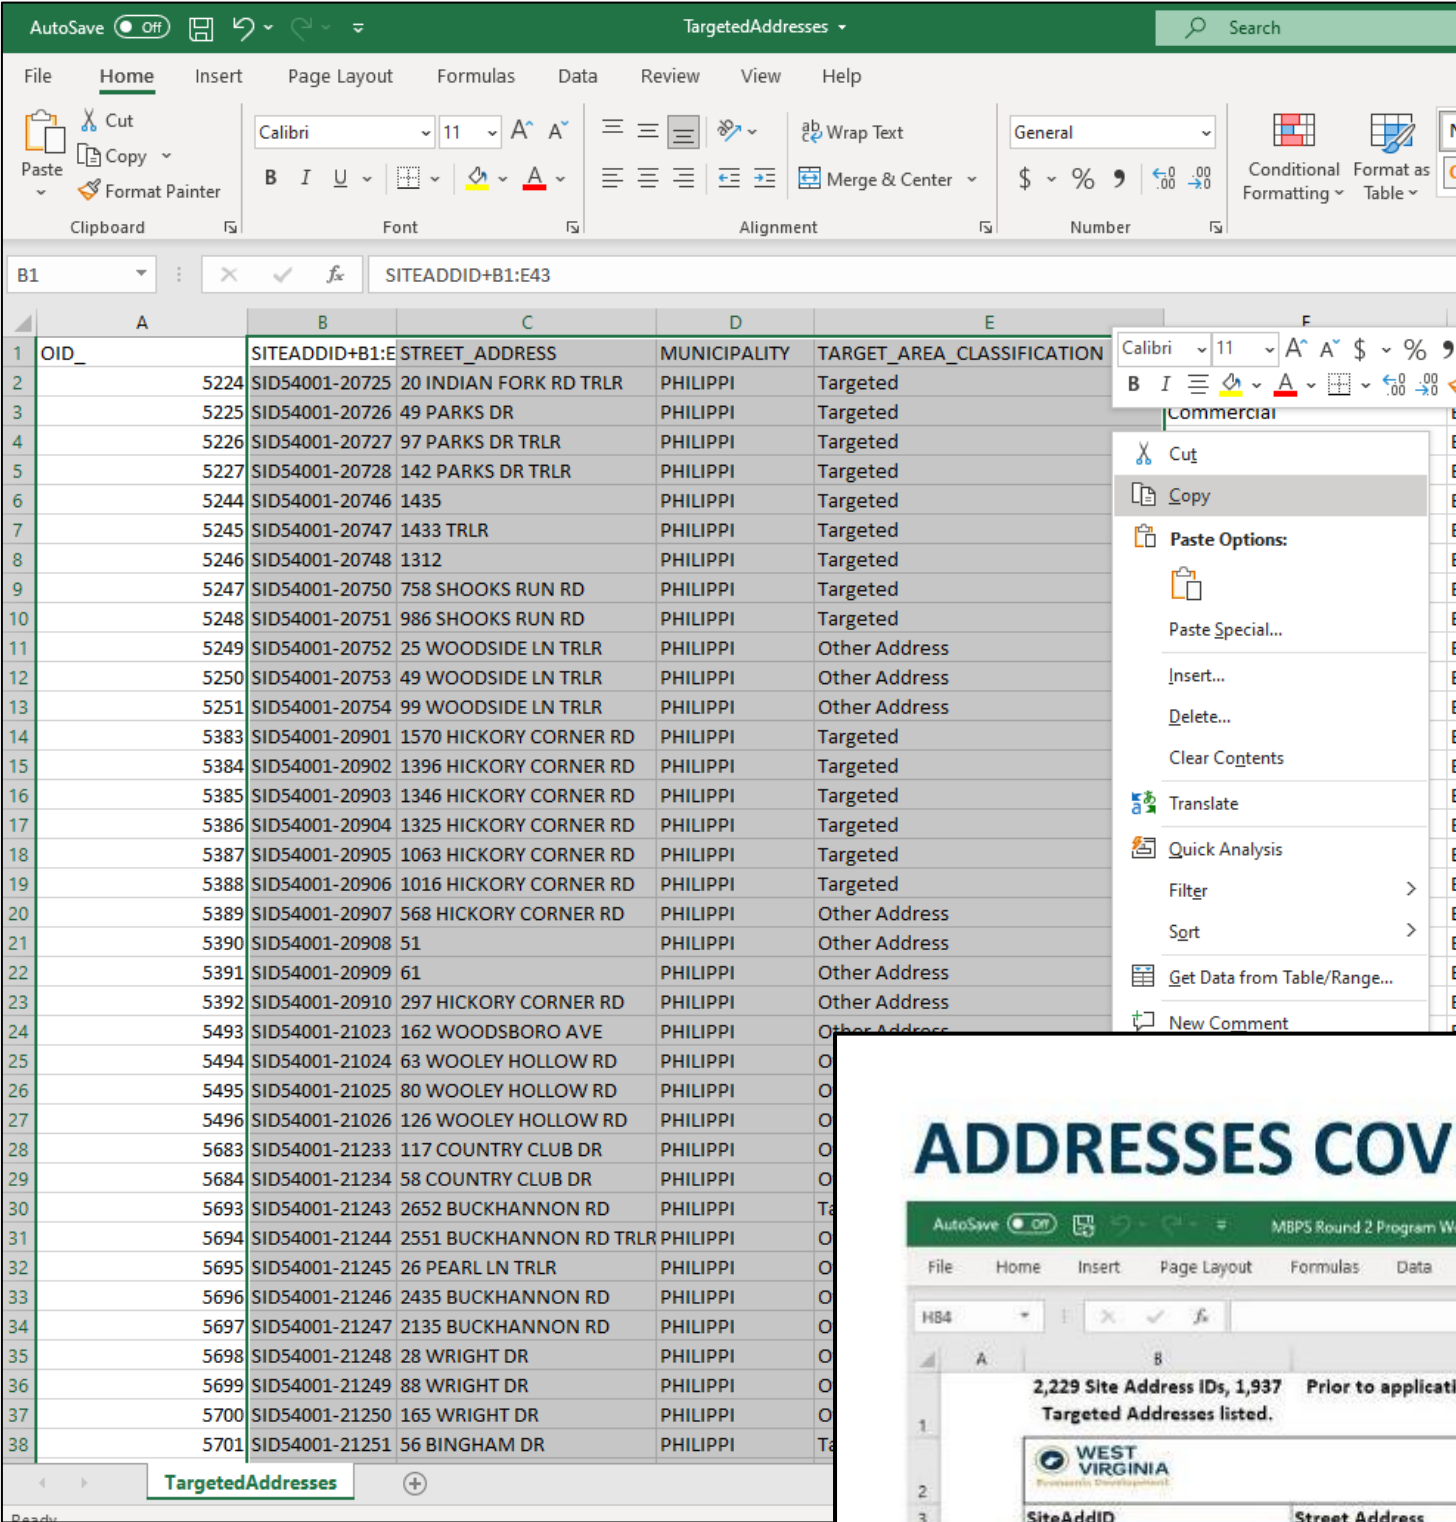

MAP RESOURCES FOR GRANT APPLICATIONS

DOWNLOADING THE DATA

After analyzing the targeted addresses, applicants must copy the tabulated data into the Budget and Pro Forma Template.

Required Fields:

- SITEADDID
- STREET ADDRESS
- MUNICIPALITY
- TARGET AREA CLASSIFICATION

Project Description

(answers are saved automatically when you move to another field)

Ask a Project Description Question

1. Project Description:

Briefly provide a general description of the scope of the proposed project.

Maximum characters: 65000. You have 65000 characters left.

2. Counties Affected:

List all affected counties.

Maximum characters: 65000. You have 65000 characters left.

WV ARPA Broadband Investment Plan – Grants Portal

<https://broadband.wv.gov/> Click on “Online Grant Application”

3. Project Area:

List communities affected. Include boundary information such as street names, landmarks, etc.

Maximum characters: 65000. You have 65000 characters left.

4. Targeted Locations:

How many Targeted Locations will the proposed project serve?

Maximum characters: 255. You have 255 characters left.

Documents

Activity Log

Application Questions

(answers are saved automatically when you move to another field)

Applicant Questions

Applicants can upload Optional Supplemental Information in the Documents section of the application.

1. Does the applicant have a current statement of existence from the West Virginia Secretary of State?

☐ Yes

☐ No

2. Does the applicant have any prior default or significant violations under any federal, state, or local broadband expansion funding program, or any suspension or debarment as a vendor by the State of West Virginia or any Federal agency within three years?

☐ Yes

☐ No

3. Can applicant's proposed project be completed within 24 months of award?

Maximum characters: 255. You have 255 characters left.

WV ARPA Broadband Investment Plan – Grants Portal

<https://broadband.wv.gov/> Click on “Online Grant Application”

5. Has the applicant currently secured all the proposed sources of applicant match and other funding sources described in this application?

Please describe any contingencies in the proposed funding sources other than award of the requested grant funds.

Maximum characters: 10000. You have 10000 characters left.

Proposed Services

6. Can you commit to offering a service of at least 25/3 Mbps with no data caps to qualified end users that would be fully subsidized under the required affordability programs?

US Treasury requires participation in the FCC's Affordable Connectivity Program (ACP) affordability program in funded areas, and will require participation in a similar affordability program after ACP runs out.

- ☐ Yes
- ☐ No

7. Describe any reduced-price tiers proposed by the applicant to low-income customers, and the applicant's participation in programs that provide assistance to low-income consumers, such as Lifeline or the Affordable Connectivity Program. Identify the download and upload speeds offered, data caps, the price or discount offered for both recurring and non-recurring charges, and how households may demonstrate eligibility.

Maximum characters: 65000. You have 65000 characters left.

WV ARPA Broadband Investment Plan – Grants Portal

<https://broadband.wv.gov/> Click on “Online Grant Application”

8. Describe any proposed tiers or service offerings for residential or business customers that the Program should consider, other than those listed in the Proposed Services tab. This may include additional service tiers, promotional prices, prices available with a term contract, and bundled service offerings (Internet with voice or video, etc.)

Maximum characters: 65000. You have 65000 characters left.

9. Describe policies and charges governing non-standard installations, including standard drop lengths and charges for long drops.

Maximum characters: 65000. You have 65000 characters left.

WV ARPA Broadband Investment Plan – Grants Portal

<https://broadband.wv.gov/> Click on “Online Grant Application”

Project Information

10. Identify the network technology standard or standards to be used in the proposed network.

- ☐ GPON
- ☐ EPON
- ☐ NG-PON2
- ☐ XGS-PON
- ☐ Active Ethernet
- ☐ DOCSIS 3.0
- ☐ DOCSIS 3.1
- ☐ Other

11. Identify the split ratio(s) to be used on the proposed facilities.

For PON Networks only, others answer "N.A."

Maximum characters: 255. You have 255 characters left.

12. If applicant's proposed service offering in funded areas is less than symmetrical 100 Mbps service, describe in detail how the proposed infrastructure and service offerings are scalable to 100 Mbps symmetrical service.

Maximum characters: 65000. You have 65000 characters left.

WV ARPA Broadband Investment Plan – Grants Portal

<https://broadband.wv.gov/> Click on “Online Grant Application”

13. Describe the project's demonstrated community support through formation of a public-private partnership, local government land, facilities, or matching funds provided, local agreements to take service, response to presubscription campaigns.

Upload letters from units of local government, regional planning and development councils, or other community organizations describing support and, describing the need for and benefit of the proposed project on the Documents tab.

Maximum characters: 65000. You have 65000 characters left.

14. Describe how you would use labor standards such as prevailing wage agreements and local hire provisions.

Maximum characters: 65000. You have 65000 characters left.

15. Describe how you would comply with all applicable federal and state environmental laws.

Maximum characters: 65000. You have 65000 characters left.

WV ARPA Broadband Investment Plan – Grants Portal

<https://broadband.wv.gov/> Click on “Online Grant Application”

15. Describe how you would comply with quarterly reporting requirements including, but not limited to, project and expenditure reports and performance reports.

Maximum characters: 65000. You have 65000 characters left.

16. Up to what percentage of the proposal are you willing to have reduced due to overlaps with competing proposals?

Applicants must accept a minimum of 20% reduction in their project due to overlaps, measured by number of Targeted addresses, with a proportional reduction in grant funding.

Maximum characters: 255. You have 255 characters left.

17. Describe the technical and managerial experience available to successfully operate the proposed project.

Refer as appropriate to the experience of the applicant and its selected partners and vendors.

Maximum characters: 65000. You have 65000 characters left.

WV ARPA Broadband Investment Plan – Grants Portal

<https://broadband.wv.gov/> Click on “Online Grant Application”

19. Describe the degree of maturity of operating systems and processes that will support the proposed project.

Maximum characters: 65000. You have 65000 characters left.

20. Describe the readiness of the proposed project to be constructed.

Address (i) the completion of preliminary engineering, (ii) the attainment of necessary permits, right-of-way access, and easements, and (iii) the completion of necessary pole and conduit licenses.

Maximum characters: 65000. You have 65000 characters left.

21. Describe the proposed project's impact within the community.

See "Community Impact Factors" in the MBPS Program Procedures for examples. Upload supporting documents describing the impact on the Documents tab as needed.

Maximum characters: 65000. You have 65000 characters left.

Proposed Services

Documents

Activity Log

Proposed Services

(answers are saved automatically when you move to another field)

Instructions [Show/Hide](#)

Enter the applicant's proposed service offerings, performance metrics and costs.

Proposed Residential Services

Identify up to four proposed residential internet service tiers. Include the highest performance tier typically offered to residential users and the most affordable tier typically offered to residential users. Pricing provided should be for stand-alone (unbundled) Internet service and non-promotional. The “Data Cap” should be any level of cumulative usage in a month above which users (i) cannot continue to use the service, (ii) may only receive service with reduced performance (“throttling”), or (iii) incur extra charges for continued use. “Recurring Fees and Surcharges” should include all fees and surcharges not required by a governmental authority to be charged to the customer; include fees intended to recover from or pass through to the end user government assessments on the service provider.

Tiers	Download Speed	Upload Speed	Typical Maximum Latency	Data Cap (if no cap, enter NA)	Monthly Recurring Charge	Recurring Mandatory Equipment Charges	Other Recurring Fees and Surcharges	Non-recurring Service Activation or Equipment Fees	Charge for Use above Data Cap	Additional Usage Associated with Charge for Use above Data Cap
Tier 1	<input type="text"/> Mbps	<input type="text"/> Mbps	<input type="text"/> ms	<input type="text"/> GB/month	<input type="text"/> \$/month	<input type="text"/> \$/month	<input type="text"/> \$/month	\$ <input type="text"/>	<input type="text"/> \$/month	<input type="text"/> GB

MBPS Round 2

VIEW OPEN PROGRAMS

HIDE PROGRAM SUMMARY

HIDE REQUIREMENTS

CONTACT ADMIN

Program Summary [\[hide this\]](#)

The West Virginia Department of Economic Development (“Department”), in coordination with the West Virginia Broadband Enhancement Council and the State Broadband Office, will administer this Major Broadband Project Strategies Program (“Program”) to increase the availability of broadband services available to West Virginians. The Major Broadband Project Strategies (MBPS) Program is part of the West Virginia Broadband Investment Plan (WVBIP) and will fund projects that can transform broadband availability accross a large part of West Virginia.

Requirements [\[hide this\]](#)

To contact Tilson Technology Management for technical assistance related to a WVBIP application or for assistance with the ZoomGrants application portal, please send questions to: wvarpaquestions@tilsontech.com

To contact the West Virginia Office of Broadband, please send questions to WVBroadband@wv.gov

Application Completion [\[hide this\]](#)

By entering your initials here you certify this submission truthfully and accurately represents your application and is hereby submitted for review. Submission of this application does not, in any way, guarantee that your application will yield a favorable result. Submission of this application also indicates your agreement to the [terms](#) of using ZoomGrants™.

The West Virginia Department of Economic Development intends to support this funding opportunity using funds allocated to the State of West Virginia through the Capital Projects Fund of the American Rescue Plan Act (ARPA). According to guidance published by the U.S. Treasury, states will be required to provide a plan describing how they intend to use allocated funds under the Capital Projects Fund consistent with the American Rescue Plan and guidance to be issued by Treasury. Treasury will begin to accept applications for review in the summer of 2021 and will issue guidance before that date.^[1] By announcing this program, the West Virginia Department of Economic Development seeks to identify projects that it can include in its application for West Virginia’s Capital Projects Fund allocation at the soonest possible date.

While the West Virginia Department of Economic Development expects that projects conforming to the requirements of this Program will be eligible for funding under the Capital Projects Fund, applicants may be asked to revise proposals or provide supplemental information following the West Virginia Department of Economic Development’s establishment of final procedures. The West Virginia Department of Economic Development reserves the right to reject any or all

Instructions for MBPS Program Budget and Pro Forma Template

Microsoft Excel version 2007 or later required. Excel 2010 or later recommended.

Enter values in the identified spaces to complete this budget form. Please enter information in the order of the tabs below to correctly prompt calculated fields.

Applicants may skip sections at the time of initial application, but must complete all information to be considered for implementation funding.

Input details within the table. Only input data in blue shaded fields such as shown at right.

Addresses Covered:

Use the link, "Map Resources for Grant Applications," at broadband.wv.gov to view and to download the Target Area address set in CSV, geodatabase, or shapefile form. Select passed addresses in your GIS application or in Excel. Export results as an Excel or CSV file. Open the file, which will show the same attributes (fields) as the column headers of B through E in the Addresses Covered table. Copy and paste the results from the Excel/CSV file into the table. The maximum table size is 60,000 addresses. Contact the Department for assistance if your project has greater than this number of proposed addresses. The count of Targeted Addresses must match the estimated number of Targeted Addresses on the Eligible Service Areas Proposed Tab.

Key Data:

Input key data points of the project scope.

Applicant Name - Must match Applicant Name provided in On-line Grant Application.

Project Name - Must match Project Name provided in On-line Grant Application. Choose a unique name for each project proposed.

New Miles of Aerial Plant - Total number of aerial new fiber or cable miles proposed by the project, enter numbers only.

New Miles of Underground Plant - Total number of underground new fiber or cable miles proposed by the project, enter numbers only.

Total New or Upgraded Wireless Access Points in Project - Total number of new or upgraded wireless access points proposed by the project.

Total Addresses Covered - The number of addresses that the project will cover, both Targeted Addresses and Other Addresses. Identify if the applicant's existing number of customers in West Virginia is greater than the number shown. (Number is 10x the Total Addressed Covered.)

If applicable, describe the reason for any difference between the Total Addresses Covered and the Maximum Passings from the Project Cash Flow tab.

Key Compliance Obligations

POST-AWARD REPORTING AND MONITORING

OVERSIGHT OF PROJECTS AFTER AWARD WILL BE AS IMPORTANT AS SELECTION OF PROJECTS

- Submission of network designs and as-builts
- Review of expenses and requests for reimbursement
- Progress reporting to meet state and federal obligations
- Field audits to verify constructed plant completeness and quality
- Participation in state broadband mapping

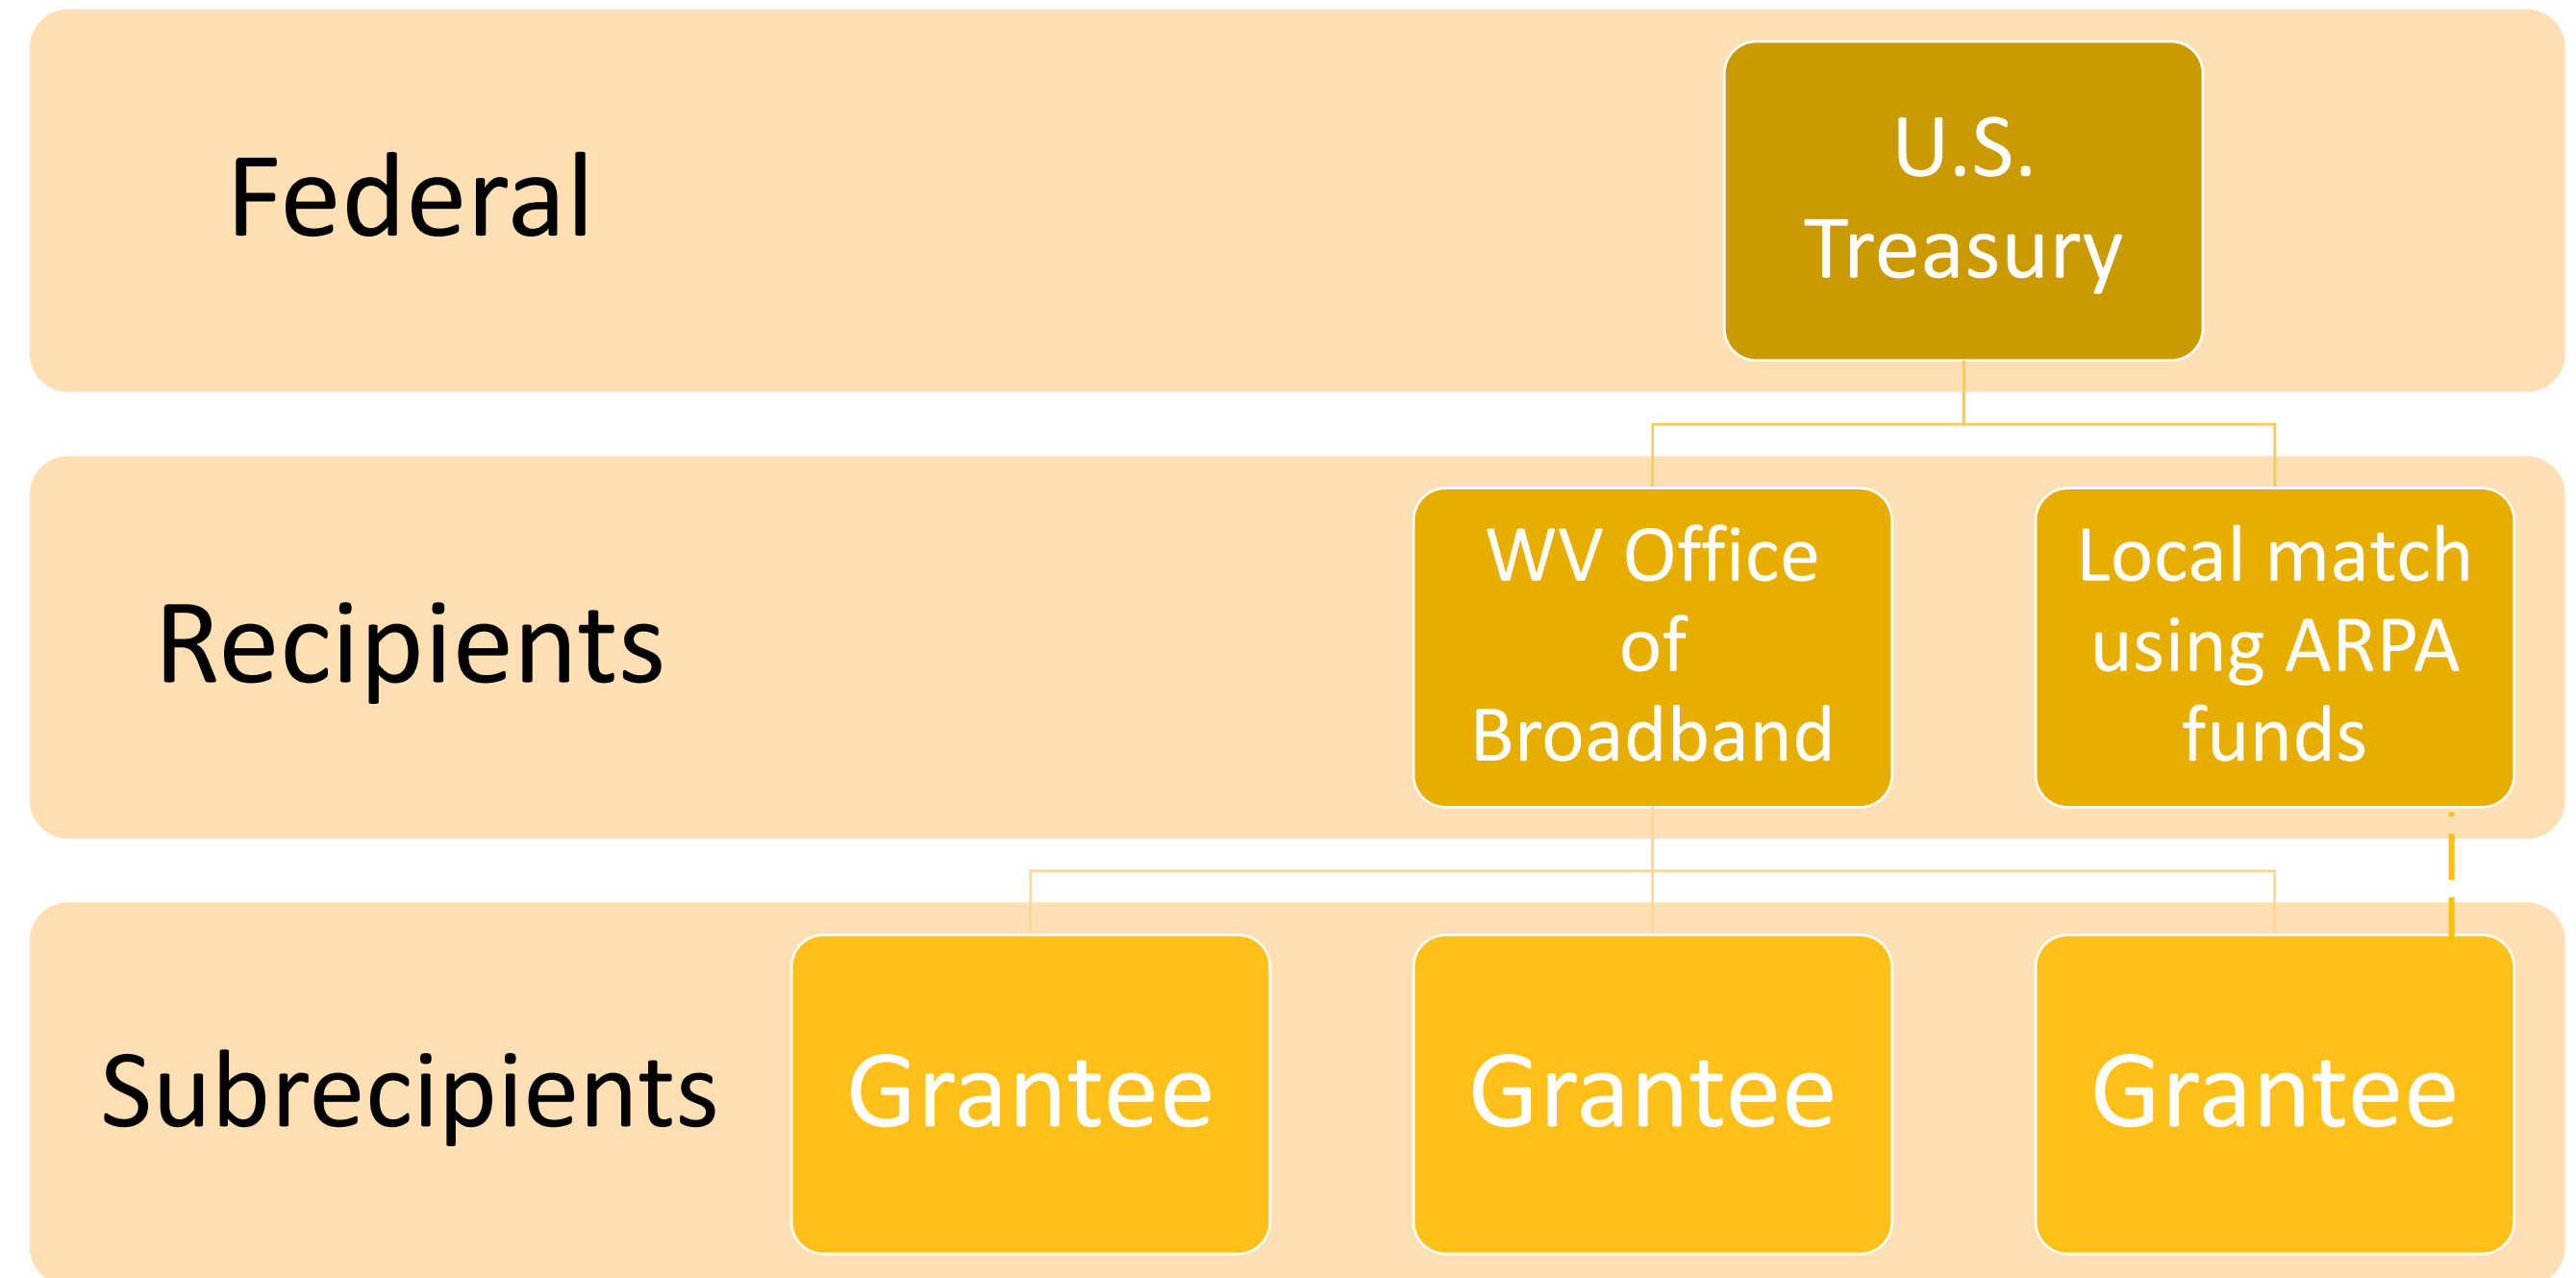

Carefully review the *Guide to Reporting and Compliance Obligations for West Virginia ARPA Broadband Investment Plan Subrecipients!*

RECIPIENTS AND SUBRECIPIENTS

SUBRECIPIENTS HAVE FEDERAL AND STATE OBLIGATIONS

Subrecipients/grantees must:

- Comply with
 - terms and conditions of award
 - statutory/regulatory requirements, *and*
 - Treasury's requirements for subrecipients
- Provide the Office of Broadband with any and all information requested, so that it may report to the Treasury

COSTS MUST BE REASONABLE AND ALLOCABLE

In general, under the Federal Uniform Guidance, Costs must be:

- (1) Necessary and Reasonable for the performance of the Federal award;
- (2) Be incurred specifically for the Federal award;
- (3) Be adequately documented

West Virginia MBPS program requirements are sometimes more specific:

- Indirect costs are not reimbursable.
- Operating expenses are ineligible.
- Internal administrative activities are ineligible.

Costs that appear excessive and/or without justification and costs not considered eligible will not be reimbursed!

GENERAL COMPLIANCE OBLIGATIONS

Grantees should refer to the *WVDED's ARPA Subrecipient Compliance and Reporting Guidance Document for Awardees*, available at <https://broadband.wv.gov/>.

Among the compliance requirements required of Grantees:

- Annual State Broadband Reporting (W.Va. Code §31G-1A-3)
- Recordkeeping Obligations
- Submission of project data to WVDED for quarterly and annual reporting
- Internal controls/monitoring of awards
- Audit Requirements (WV Grant Transparency and Accountability Act – W.Va. Code §12-4-14)
- Strong Labor Practices, compliance w/ all applicable federal laws/regulations
- Labor Reporting for Projects receiving \$5M or more (CPF); over \$10M (SLFRF)
 - Certifications regarding prevailing wages for contractors/subcontractors
 - Certifications regarding Project Labor Agreements (pre-hire collective bargaining agreements)
 - Whether Projects prioritize local hires
 - Whether Projects have a Community Benefit Agreement

GENERAL COMPLIANCE OBLIGATIONS – Cont'd

Grantees should refer to the *WVDED's ARPA Subrecipient Compliance and Reporting Guidance Document for Awardees*, available at <https://broadband.wv.gov/>.

Among the compliance requirements required of Grantees:

- Civil Rights Compliance with all Federal and State laws prohibiting unlawful discrimination/violations of civil rights, for example:
 - Title IV of Civil Rights Act of 1964
 - Rehabilitation Act of 1973
 - Age Discrimination Act of 1975
- National Defense Authorization Act (2019) – relating to procurement of telecommunications equipment from certain prohibited vendors (Huawei, ZTE, etc.)
- Competitive Procurement Policies (Avoidance of Conflicts of interest/disclosures of affiliated business entities (per 2 CFR 200.318(c))
- Participation in the FCC's Affordable Connectivity Program

Environmental and Historic Preservation Compliance

FEDERAL ENVIRONMENTAL COMPLIANCE

APPLICABILITY

Federal Environmental Law Compliance

Awardees must comply with all applicable federal environmental laws—WVDED will provide a checklist as part of Grantee's Grant Agreement with WVDED.

Potentially applicable laws include but are not limited to:

- The Endangered Species Act
- Clean Water Act
- Clean Air Act
- National Historic Preservation Act (NHPA)
- Resource Conservation and Recovery Act (RCRA)
- National Environmental Policy Act (NEPA)

PERMITTING REQUIREMENTS

GENERAL

Grantees are responsible for complying with all applicable permitting requirements for infrastructure projects in rights-of-way, including:

* West Virginia Division of Highways (DOH) permitting processes; (Dig Once, encroachment/bond permits)

* Underlying municipal, county, state fees/permits/approvals;

* Federal agency approvals (if within federally-designated lands)

HISTORIC PRESERVATION

NATIONAL HISTORIC PRESERVATION ACT SECTION 106

Grantees must:

- 1.) Confer with the West Virginia State Historic Preservation Office (SHPO) regarding the applicability of Section 106 of the National Historic Preservation Act to the Project;
- 2.) Submit any information required by SHPO; and
- 3.) Receive a communication from SHPO that no further action is required related to a Project before the Department will issue a notice to proceed for the Project.
- 4.) Grantees should also submit documentation of their SHPO compliance to the WVDOH.

Notices to Proceed

An aerial photograph of the Indiana State Capitol building, featuring a large, ornate dome with a blue and gold pattern. The building is situated on a hill overlooking a river, with a town and forested hills in the background. The entire image is overlaid with a semi-transparent orange filter.

REQUEST FOR NOTICE TO PROCEED WITH EXEMPT ACTIVITIES

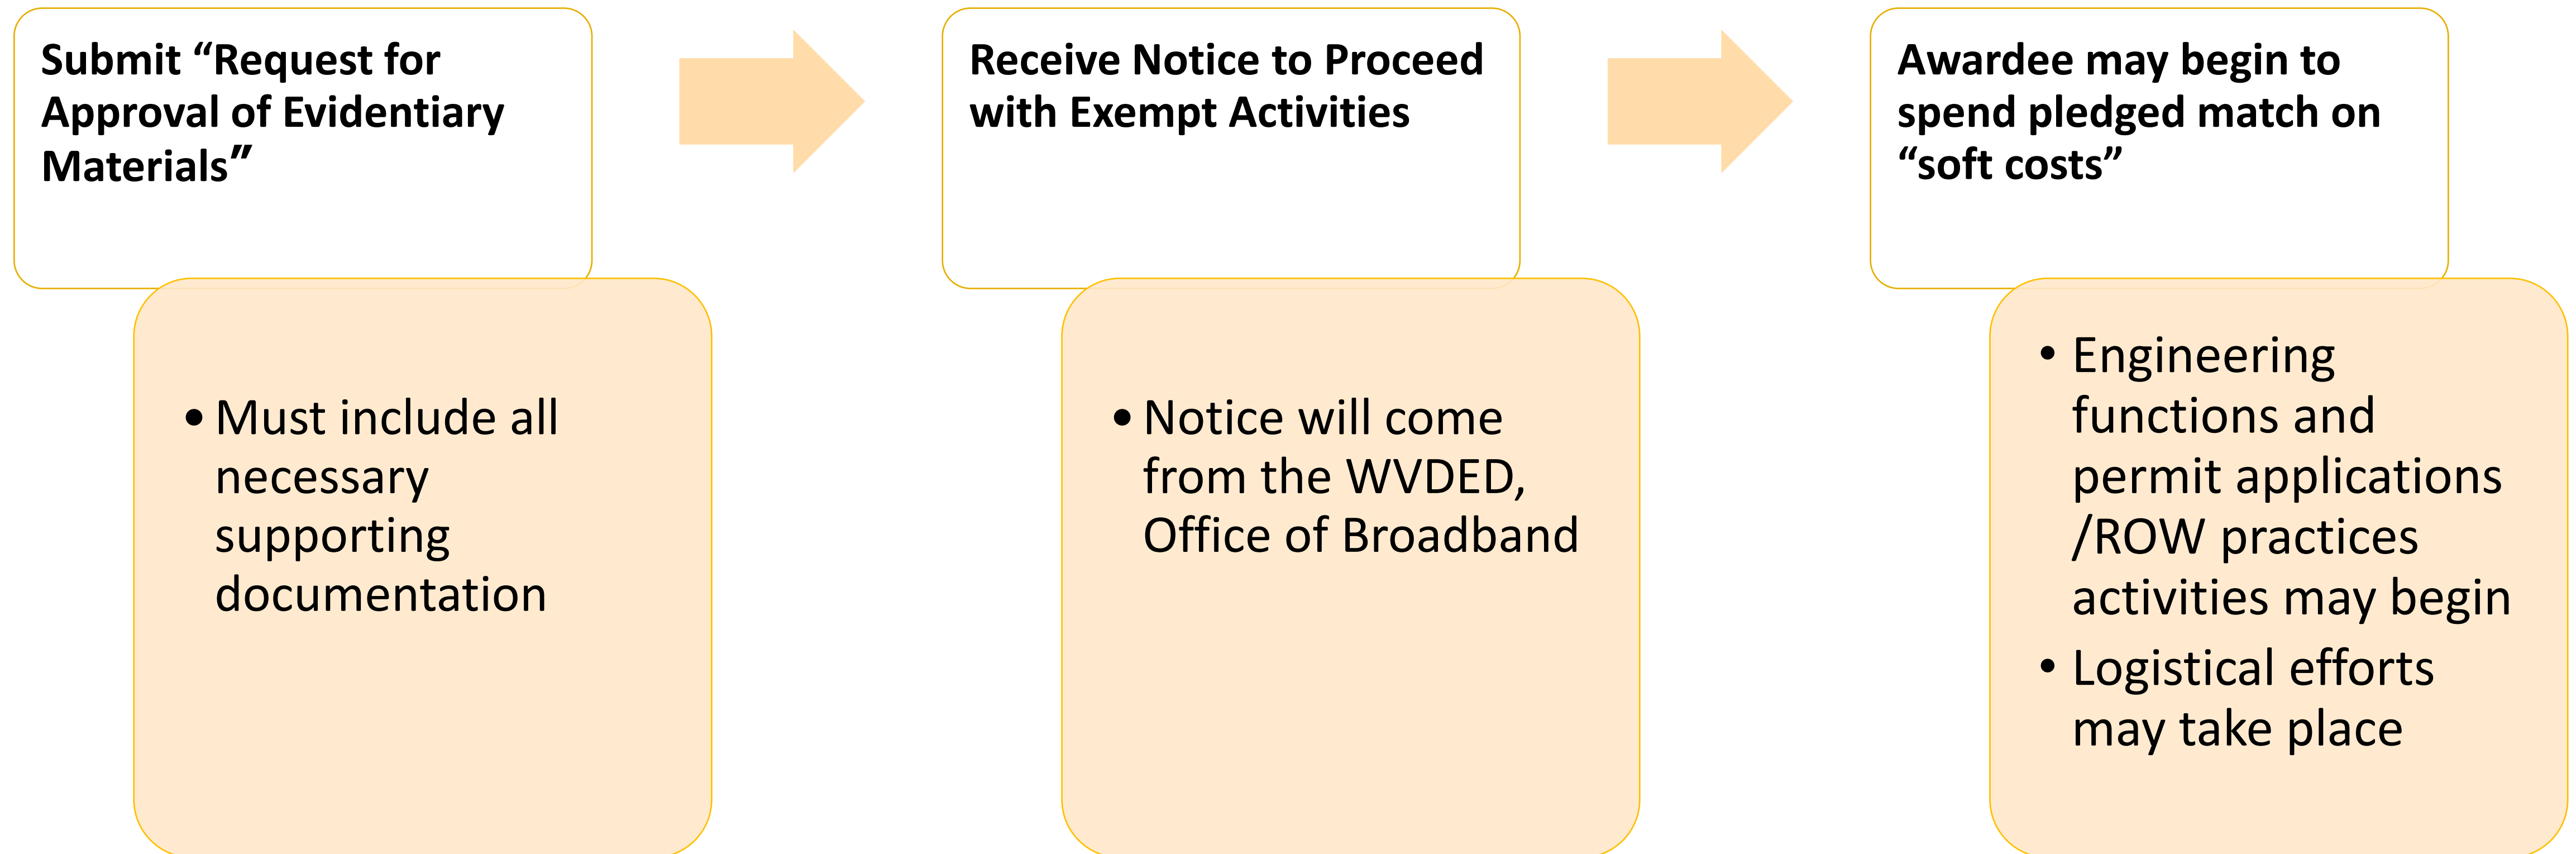

- Prior to construction, the WVDED requires grantees to complete a number of requirements, in a two-step Notice to Proceed process. This process includes

Step One: **Notice to Proceed with Exempt Activities;** and

Step Two: **Notice to Proceed with Construction**

NOTICE TO PROCEED WITH EXEMPT ACTIVITIES

GRANTEES MUST RECEIVE THIS NOTICE BEFORE MAKING ANY ELIGIBLE EXPENDITURES

ADDITIONAL STEPS BEFORE CONSTRUCTION & GRANT FUNDING

Notice to Proceed with Exempt Activities

May begin pre-construction activities once received

May begin to spend match

Submit Engineered Design

May request grant funds for pre-construction activities, if required match is fully spent

Design is also required to request Notice to Proceed with Construction Activities

May request grant funds for construction activities only after also receiving Notice to Proceed with Construction

Notice to Proceed with Construction

May begin construction activities once received

May request grant funds for construction activities, if required match is fully spent

Quarterly Progress Report

QUARTERLY REPORTING DATA

SPECIFIC REPORTING ITEMS

INCLUDING BUT NOT LIMITED TO:

- General identifying information
- Completion status
- Gross revenues from Federal funding
- Project-level data
 - Project technology types (Planned/Actual)
 - Total miles of fiber deployed (Planned/Actual)
 - Total number of locations served (Planned/Actual)
 - Total number of locations served, broken out by speeds (Pre and Post-ARPA investment)
 - Total number of funded locations served, broken out by type (Planned/Actual)
- Speed tiers offered and pricing
- Confirmation of provider participation in FCC Affordable Connectivity Program
- Location by location project information
 - Technology used to offer service at location
 - Location type (Residential, business, Community Anchor Institution)
 - Speed tier at location pre-ARPA investment
 - Speed and latency at location post ARPA investment (maximum download and upload speeds offered and delivered)

SPEED TEST REQUIREMENTS

PER TREASURY AND FCC GUIDANCE

- Speed and latency tests must be from customer premises of an active subscriber
- 95 percent of latency measurements must fall at or below 100 milliseconds round-trip time
- Based on FCC Orders (see links below), there are requirements for testing involving:
 - End points for testing
 - Daily Test Periods
 - At least one download test and one upload test per testing hour at each subscriber test location
 - Number of test locations (depending on number of subscribers in a state)
 - **Testing Frequency:** FCC requires quarterly testing for speed and latency
 - **Flexibility/Choice in testing Methods**

2018 FCC Order: <https://www.fcc.gov/document/wcb-wtb-and-oet-adopt-performance-measures-caf-recipients>
